INTRODUCTION

I wish to apply for the position of Senior Structural Engineer at EngineersCo. I am a passionate, hard working and team orientated Engineer with more than 7 years experience as a Structural Engineer in consultancy; specialising in Large scale commercial buildings. I believe that my passion, skills and drive would make me an ideal candidate for this position.

EXPERIENCE

Structural Engineer, SkyCiv Engineering - Sydney, Australia 2011-Present

As a Structural Engineer for SkyCiv, I was responsible for assisting users with their structural models, assistance with AS4100 design standards, development of Finite Element Analysis solvers and managing key client accounts.

Junior Structural Engineer, XYZ Co. - San Diego, USA 2009 2011

I was integral part of the Civil Design team; responsible for building initial models (from architect drawings), formulating some connection designs, secondary modelling and double checking, and involved in the model refinement process.

Intern, The Engineering Guys. - Los Angeles, USA 2008-2009

This one year internship introduced me to a range of commercial and residential projects. I would regularly file and manage design documents, build simple models and assist the structural design team in their day to day operations.

EDUCATION

University of New South Wales — Bachelor of Civil Engineering, 2009
Waverley College; Sydney, Australia - Higher School Certificate 2004

SOFTWARE SKILLS

Software	Competency
<u>SkyCiv Structural 3D</u>	Advanced
AutoCAD	Advanced
Javascript, C++, Java	Medium
